THE SILK ROAD - AND THE BEST OF THE GOLDEN STANS

This is an extra special and extended journey through 'The Stans' with a 23-day epic itinerary – starting on the 5th of September 2026. If you are interested in the exploration of these incredible Places, their People and their fascinating Tales come and join G&T as we follow in the footsteps of Genghis Khan and **EXPERIENCE** the following:

We will connect with the **local nomadic families** as we are invited into their homes to learn all about their **Culture**, nomadic **Lifestyle**, and local ancient **Traditions**. We will learn as we participate in the creation of some of their **favourite local recipes** and get to enjoy the fruits of our labour.

We will delight in the unique **Architecture**, where the **turquoise** colour and **intricate design** of a bygone era still stands proud today.

We will listen and be captivated by the many **tales** that illustrate the **depth of knowledge** shared between the peoples. Their connections continue to shine through today from their various religions and beliefs.

We will witness the **tapestry of arts and crafts** of the trading nations by following the old **Caravan Trade Routes** where they traded their wares of silk, carpets, fabric and paper.

We will be inspired by the hard-working traditional **yurt makers**.

We will be amazed to see the skilful **Eagle Hunters** and the **Kyrgyz Horsemen**.

We will wander around in the colourful **bazaars** and **local markets** where the stalls are vibrant and buzzing.

We will admire the many **spectacular landscapes** including the picturesque rugged snowcapped **mountains**, large alpine freshwater **lakes**, the endless vistas that display the full spectrum within the **canyons** and **gorges** amongst lush green **valleys**.

We will take the time as the sun sets to enjoy some **evening strolls** amongst the ancient fortresses in search of the best **rooftop restaurants** to gain a bird's eye view of the street scenes below.

We will enjoy some **free time** to wander and explore independently.

We will **tantalize our tastebuds** as we search out the best restaurants locally and dine out rather than include too many hotel dinners which can be very repetitive.

Gools and Thommo have designed this trip (like all others) to include all the things that 'Our Clubbers' have come to expect. A unique and interesting itinerary including local contact with the people, fun hands-on activities and many multiple night stops with some excellent 'experience' accommodation.

Some of our accommodation this time, will allow us to delve into the local lives of the local families. To achieve this, we leave the cities behind as we venture into the countryside. We have included some small guest houses (the best available in the region) and even 2 nights in a traditional yurt (a nomad style tent) along with some comfortable boutique style and luxury style hotels. All up, our accommodation is all about style and location, location, location!! This then means on any given day you can explore independently if you wish with the free time given.

Central Asia is a truly unique and unforgettable experience that encompasses so many UNESCO World Heritage sites. It is easy to see why it appears to be on everyone's bucket list. Come with us as we criss-cross the famous and ancient Silk Road Trade Route of KAZAKHSTAN, KYRGYZSTAN, UZBEKISTAN, and TAJIKISTAN.

The above 4 countries have such diverse and spectacular scenery which will have you with eyes wide open and not knowing where to look. The breathtaking backdrop of beautiful mountains surrounding deep green valleys, the carved rock formations within the ancient red gorges, and the crisp blue sky will leave you with everlasting memories for years to come. Your friends will be super jealous!!

There have been many historical expeditions through this region over the years. Those expeditions have covered many miles between Western China and what is now known as Central Asia. We will learn and appreciate all that this region has to offer through the unique connections between the different peoples who have travelled and traded here for centuries. The differing culture and history will be evident in the amazing architecture, some of which include the well-known and well photographed domes, minarets, and of course the decorative turquoise tiles. The differences will be evident in the warm hospitable people of the region who are super keen to share their homes and their stories along with sharing the secrets of their authentic delicious recipes. They are also happy to showcase their hardy nomadic lifestyles and traditions with us.

This destination, due to the ancient trade routes and the developing economies has it all. The busy colourful markets and the age-old arts and crafts of the different peoples are an absolute new experience and a photographer's dream.

NB: We have after much research decided to leave out the 5th Stan 'Turkmenistan' for several reasons.

Firstly, visas can be problematic, and many other companies seem to add it in just because it is the 5th Stan, and it sounds good to say the 5 Stans!! However, when you look at what value add it has as a stand-alone destination the outcome is minimal in our humble opinion. There is not enough difference in what the 4 other Stans are famous for and therefore in our opinion there is a reasonable amount of double up in both the sights and experiences.

Secondly, G&T Travel Club are choosing to spend more time in each place with **more 2-night stops** and even **one 3-night stop** as we believe this is more important than just ticking off an extra Stan! Other companies have way too many 1-night stops and too many long driving days in between. We have spaced out the necessary 1-night stops dependent on what there is to see and do and to maximise our time doing the fun and exciting stuff.

Thirdly, we know what our Clubbers now come to expect, and a **slower pace** and a **more in-depth adventure** is what we are aiming for. To achieve this, we have also added in two internal flights and an exciting fast train sector. This way we can minimise the long driving days.

Gools and Thommo have taken all of this into consideration and with our great mate Sandi (our Central Asia Guru) we have designed a fantastic and very different itinerary - one not to miss!!! So come along with G&T (Gools and Thommo) on our next fascinating Travel Club adventure.

'THE SILK ROAD and the BEST of the GOLDEN STANS'

HOW WE DIFFER

The following are some of the considerations we made, while developing this Central Asia programme.

1. **G&T** always develop an **exciting itinerary** with natural flow to maximise our time and experience. We choose our tour dates with regard for the best possible **weather** across the 4 different countries. With consideration of the size of the region it is important to take advantage of **2 internal flights and a high-speed train** to minimise too many 1 night stops.
2. In typical '**G&T**' style we have chosen some **fantastic accomodation** that enhances our experience in this part of the world. We have chosen some luxury hotels, some boutique hotels, and some regional guesthouses (best available in the area) which allows us to meet the local people. The **location, style and proximity** to the action will be very evident. It is important to us that when we have free time you can easily wander the local area.
3. **Food** is an important part of why we travel so we always like to include some **traditional meals** in the itinerary. We have decided not to include too many evening meals in the city hotels as they can be quite repetitive. However we have included all meals when we stay in our regional guesthouses because that becomes **part of the experience**. Dining out also gives us the opportunity to **see the city by night**.
4. **G&T always host every Club Tour**. This gives you something no one else can match. We will be with you the entire time, assisting with your needs and looking after you personally. On top of that we will always employ our own National Tour Guides along with localised city guides to better understand the local areas.
5. **G&T** most importantly make sure that the product is '**Great Value**'. Not necessarily the cheapest but well worth the few extra dollars to ensure an amazing experience!
6. **G&T** always design a tour program with the Clubbers in mind. The concept of the Club remains the same and that is, our Club is **invite only and not open to the general public**. Clubbers are always encouraged to bring along their immediate family and or friends as we feel that they too will be a good fit for the G&T Travel Club.
